

VU THANH DANH

PERSONAL INFORMATION

Date Of Birth: February 8, 2000

Address: Binh Tan District,
Ho Chi Minh City

Email: vuthanhdanh080200@gmail.com

Phone Number: 0963774129

EDUCATION

Bachelor's degree in Computer Science with very good from Ho Chi Minh City University of Technology.

ACTIVITIES

2 years of experience working as a mobile developer at Netpower Vietnam.

SKILLS

Programming language: I understand well know JavaScript and TypeScript. I also work with Java, Swift and Python.

Framework: My strongest framework are React Native, React. I also work with Nodejs.

Source control : Git

Others: Docker, CI, CD for web, build iOS and build Android.

PROJECTS HAS WORKED ON

Schooling Mobile App: We utilized React Native for our project. The features I have implemented include

- Authentication (login, logout, register, single sign-on login, and account setup).
- Course display.
- Course details.
- User account management: showcasing user points, rankings, and certificates.
- Course payment integration using Braintree.
- Course learning functionality, and course search.

Tank Web App: The project uses React. The features I have implemented include

- + Authentication.
- + Tank creation, displaying tank information as a table, showcasing tank details and enabling their update
- + Inspection creation, and displaying inspection information as a table.

I am also responsible for maintaining some React Native projects and a schooling project developed using Swift for iOS and Java for Android.

CERTIFICATE

[Python Certificate](#)

TOEIC Reading & Listening: 850

AWARDS

Netpower's Rising Star Award

STRENGTHS AND WEAKNESSES:
